

## TABLET GNSS RECEIVER

# N80T

Android tablet N80T integrates high-precision GNSS module, professional satellite antenna, 4G network module and various sensors, bringing high efficiency and productivity to mobile field work from different industry and applications, such as GIS data collection, mapping, construction, powerline, etc.

OS	Android 8.1
CPU	2.0GHZ
RAM	6GB
ROM	128GB, SD card extendable
Channel	184
Satellite Tracking	GPS (L1, L2); GLONASS (L1, L2); Beidou (B1, B2); GALILEO (E1, E5); QZSS (L1, L2)
Accuracy	RTK: 2cm+1ppm; Autonomou: 3m
Bluetooth	Bluetooth V2.1+EDR / V3.0+HS / V4.1
WiFi	WiFi IEEE802.11 a/b/g/n 2.4/5GHz
USB	USB-Type-C, OTG
Display	8", 800*1280 TFT
Camera	Rear: 16MP with AF; Front: 5MP
Card Slot	Dual SIM card; TF card
Internal Sensor	NFC, G-sensor; Light sensor; E-compass Pressure sensor; Range sensor
Others	Microphone; Speaker
Battery	3.8V 8200mAh Removable Li-on Battery
Duration	10h
Dust and Water Proof	IP67
Shockproof	1.2m
Temperature	Working: -20 to 60°C Storage: -40 to 80°C
Size	258*147*15mm
Weight	745g with battery
